

A service is being developed to facilitate walking to school together, made safe and fun with sCOOL2walk. You, as parents, and your children, helped identify requirements for this service during the workshops held in May. Below you'll find insights translated into preconditions and requirements for the application development.

What is your ideal way to go to school?

#WillingToWalk

Kids are willing and happy to walk.

#WalkingMindset

A mindset to walk to school is present. And a need to be able to facilitate organised walking trips.

General results

#PickUpPoint

A preference for pick-up points near/at homes.

#Fun

Game features create more fun while walking.

#Notification

A need for an update during or after the walk. And a varied need for tracking.

#KidsLikes

Kids like to walk, play, socialize, being in nature.

#TeensWalk

A need for older children, especially girls, to arrange walking together.

#IndependentOrGuided

Children aged 12 and up are allowed to walk unsupervised, while younger ones go with a guardian.

#Community

Community collaboration by means of taking turns for walking groups.

#LimitedDataRetention

The app stores the child's location when necessary to provide the service, afterwards this is securely and permanently deleted.

#WalkingBuddies

Trusted members of the community, selected by the community.

#FocusPoint

Parents can highlight points along the route requiring extra attention. Parks are a mentioned example in Barcelona.

#Advantages

Walking to school enables kids to:

- Socialise
- Be active
- Focus better in class

#KidsDislikes

Dislikes about walking are pollution and speeding cars.

what's next?

All this valuable information is being processed and will be used to adapt the app to your wishes and needs. Currently, a pilot walking-bus is being evaluated right now! Scan the QR code if you're interested in following this EU funded project closely:
